ОПЕРАТИВНА ПРОГРАМА  
„Развитие на конкурентоспособността  
на българската икономика” 2007-2013  
[www.opcompetitiveness.bg](http://www.opcompetitiveness.bg)

Beneficiary: „BULMAT” LTD,

Project „Enhancing the competitiveness of BULMAT LTD through modernization of the production” under contract 2TMM-02-14/18.02.2011.

Operational Programme „Development of the competitiveness of the Bulgarian economy 2007-2013г”, procedure BG161PO003-2.1.06 „Technological modernization in small and medium enterprises”.

Procedure: **Open selection for contractor for Delivery, installation and commissioning of automated production equipment, controlling and testing of flexible water joints with the following lots:**

**1.1.1 Automated production line for flexible water joints;**

**1.1.2 Stand for pressure testing of flexible joints;**

**1.1.3 Stand for tensile testing of flexible joints.**

### METHODOLOGY FOR EVALUATION OF THE OFFERS

The evaluation of the received offers for delivery, installation and commissioning of the mentioned equipment shall be done according to the criterion “Economically most advantageous offer”:

**1. The indicators for evaluation of the offers and their relative weight are as follows**

The indicators which will assess the offers and their respective weights in the general assessment are set out in the next

**Table 1**

Indicator	Indicator - II	Relative weight	Maximum possible number of points	Symbolically marking of the points
1	2	3	4	5
Ind. 1	Price	60% (0.60)	100	T <sub>ц</sub>
Ind. 2	Duration of the warranties and implementation of the contract	40% (0.40)	100	T <sub>с</sub>

#### Indicator II1 - “Proposed price” - with maximum number of points - 100 and relative weight in the general assessment - 0.60

The maximum number of 100 points receives the offer with the lowest proposed price. The points of the rest shall be determined in proportion to the lowest proposed price by the following formula:

$$T_{ц} = 100 \frac{C_{\min}}{C_n}, \text{ where}$$

- **100** is the maximum number of points for the indicator;
- **C min** - is the lowest proposed price;
- **Cn** - the price proposed by the “n”-th applicant.

ОПЕРАТИВНА ПРОГРАМА  
„Развитие на конкурентоспособността  
на българската икономика” 2007-2013  
[www.opcompetitiveness.bg](http://www.opcompetitiveness.bg)

The points of the first indicator **Ind.1** of the “n” applicant are given by the following formula:

**Ind.1 =  $T_{ц} \times 0.60$**  , where:

- **0.60** is the relative weight of the indicator;

**Ind.2 - “ Duration of the warranties and implementation of the contract” - with maximum number of 100 points and relative weight 0.40**

The maximum number of points receives the offers which propose:

- the longest / the most continuous warranties;
- the shortest period for implementation of the contract.

The points **T<sub>ц</sub>** of this indicator for each offer are calculated as the sum of the points listed in the next

**Table for indicator Ind.2**

№	Ind.2 - Duration of the warranties and implementation of the contract	Parameters	Points
1	2	3	4
1.	Warranty	1. Over 12 months	60 p.
		2. 12 months	40 p.
2.	Deadline for execution of the contract	1. less than 8 months	40 p.
		2. 8 months	20 p.
	<b>The maximum number of the points for the indicator “ Duration of the warranties and implementation of the contract” - T<sub>ц</sub> is 100</b>		..... T <sub>ц</sub>

**Notes:**

1. The maximum number of points for the different conditions in rows 1 column 3 is as follows:
  - Warranty over 12 months - 60 points;
  - Deadline for execution of the contract less than 8 months or less from the date of its signing - 40 points.
2. For the parameters which are below the optimal ones in rows 2 column 3 the following points shall be determined:
  - Warranty 12 months - 40 points;
  - Deadline for the execution of the contract 8 months from the date of its signing - 20 points.
3. The sum of the points in column 4 for the most optimal parameters /indicated in column 3/ must be equal to 100 points.

ОПЕРАТИВНА ПРОГРАМА  
„Развитие на конкурентоспособността  
на българската икономика” 2007-2013  
[www.opcompetitiveness.bg](http://www.opcompetitiveness.bg)

The points of the second indicator **Ind.2** of the “n”-th applicant are given by the next formula:

**Ind.2 = Tc x 0.40** , where

- **0,40** is the relative weight of the indicator.

## **2. Methodology for determination of the general evaluation of the offers**

The consideration, the evaluation and the ranking of the offer shall be done in the following sequence:

### **2.1. Checking for completeness and compliance of the submitted documents**

Offers which don't meet the minimum requirements and are not in accordance with the documentation for participation in the procedure or have not been submitted in accordance with the attached templates will be removed after reasoned justification by the Committee and will not be evaluated.

The evaluation criteria apply only to offers that are not removed from the procedure on the grounds provided in art.31 of the Council of Ministers Decree №55/2007 and that meet the requirements for economical and financial situation, professional qualification and technical capacity, stated by “BULMAT” LTD.

Offer which does not include delivery, installation and commissioning, warranties as well as does not meet the minimum technical and functional characteristics in accordance with the corresponding Technical specification will be removed.

**2.2. The general evaluation (GE)** of each applicant is calculated as the sum of the offer evaluation on both indicators using the formula:

**GE = Ind.1 + Ind.2**

The offer received the highest general evaluation (GE) is ranked first while the remaining are ranked in descending order.

In an equal number of points the offer with the lowest price is ranked first.

The applicant ranked first by the Committee is selected for the contractor of the delivery under this procedure.

18.10. 2011
